There are four wells – nine clocks – 90 zones and over 1100 sprinkler heads and rotors.

With 90 zones it is hard to zero in on exact times, however most of the zones activate late evening and after midnight.

We are relegated by law to abide by the rules implemented this past year of watering once per week.

The rear lawn areas are not listed on the above schedule, but they are being watered.

All of our clocks are now digital type. A test of all zones was completed on Friday – November 6th.

Don't forget your flu shot!
